It is important to follow this course sequence if you wish to complete the requirements of your program in four years. Any failure, withdrawal or modification of a course in this sequence could result in a delay in completing the requirements of your program.

Notes

Clinical placements may occur during the day, the evening, on weekends and some may extend until the month of May and June. The deadline to register to a clinical placement is June 30.

To find an elective, visit the following link: www.timetable.uottawa.ca. Choose advanced search, select off campus and Pembroke or course offered on-line on the location menu.

All NSG courses require a passing mark of C+.

It is mandatory for all students who have been away from clinical for more than 6 months to register and successfully complete the Clinical Update course. For more information concerning registration, please email healthsc@uottawa.ca.

¹ Courses with clinical components

² Courses offered by videoconference from the University of Ottawa to Algonquin College - Pembroke Campus

Registration requirements for clinical placements

Please consult the Office of Risk Management to obtain more information regarding the additional program requirements <http://www.uottawa.ca/services/ehss/CPRM.html>

Effective for the 2015-2016 academic year
